

Plain square diffuser

LKAN

Description

LKAN is a square diffuser with an unperforated face plate. LKAN can be used for both supply and extract air and is suitable for the horizontal supply of cooled air.

Installing a LKAN diffuser with a plenum box type MB can help to achieve a stable airflow to the diffuser as well as realise the potential for individual adjustment.

Damper type B is an unique linear cone damper which allows to use the full operational area (0-100%) and allows to balance with a high pressure loss over the box with low sound generation. Furthermore the construction of the damper gives an accurate and reliable measurement.

Damper type C and E are with rotating blade dampers for respectively supply and extract. Typically used in applications that don't require a high balancing pressure in the plenum box

- Suitable for both supply and exhaust air.
- Suitable for the horizontal supply of cooled air.
- Plenum box with several damper options

Maintenance

The face plate can be removed to enable cleaning of internal parts or to gain access to the duct or box. The visible parts of the diffuser can be wiped with a damp cloth.

Order code

Product	LKAN	aaa	b
Type	LKAN		
Connection dim. Ød	Ø125-400		
Material	G - Galvanized steel S - Stainless steel		

Example: LKAN-200-G

Dimensions

LKAN Ød	A	H	*ØU	Free area A	m
[mm]	[mm]	[mm]	[mm]	[m ²]	[kg]
125	235	40	135	0,0099	1,0
160	295	40	170	0,0144	1,4
200	395	40	210	0,0198	2,4
250	495	60	260	0,0297	3,6
315	595	60	325	0,0369	5,5
400	595	80	410	0,0378	5,5

*ØU = Cutout dimension (Ød + 10 mm).

Materials and finish:

Standard material:	Galvanized steel (G) or Stainless steel (S)
Standard finish:	Powder coated
Standard colour:	RAL 9003 and RAL 9010, gloss 30

The diffuser is available in other colours. Please contact Lindab's sales department for further information.

* Using accessory MBZ the H dimension will increase:

$\varnothing d_2 = 125 - 200 \text{ mm} \Rightarrow H + 40 \text{ mm}$

$\varnothing d_2 = 250 - 315 \text{ mm} \Rightarrow H + 60 \text{ mm}$

$\varnothing d_2 = 400 \text{ mm} \Rightarrow H + 80 \text{ mm}$
